## **23.30 New York Stock Exchange (NYSE)**

- 24.00 It was founded on May 17, 1792. This is when “Wall Street” was born.
- 24.17 One of the world’s largest marketplaces for securities and other exchange-traded investments.
- 24.26 The NYSE is the oldest stock exchange in the United States.
- 24.30 Highest trading volume on planet Earth, largest exchange on Earth.

- 24.48 S&P 500:**  
25.12 The S&P 500 was launched in March 1957, when a gallon of gas cost around \$0.28  
25.28 The S&P 500 has, not surprisingly, 500 component companies. That might seem like a relatively modest number, since there are several thousand companies traded publicly in the U.S. market. It's not, though, because these are 500 of the biggest companies in America, and together they make up about 80% of the overall market's value.  
The S&P 500 is widely regarded as the best single gauge of large-cap U.S. equities.
